COMPLIANCE DIRECTION TAKEDOWN (CDT)

What is CDT®?

CDT is a soft handed control/restraint system that is easy to learn, maintain and apply. **CDT** was designed for real world situations to physically control or disarm a hostile aggressor, and keep him in compliance or completely restrained until help arrives.

Compliance

Direction

Take Down

COMPLIANCE DIRECTION TAKEDOWN (CDT)

Compliance - To diffuse an aggressive act through soft-handed control or restraint techniques in order to protect the safety and welfare of others.

Direction - Steering or moving an aggressor to a safe place or position in order to protect the safety and welfare of others.

Take Down - A safe, non-vital method used to keep an aggressive subject in a prone position in order to secure and maintain them or if legally allowed to fully restrain them with handcuffs or restraints.

How was CDT® formed?

CDT® was created by a world renowned bodyguard (Tom Patire) who taught Defensive Tactics to numerous Municipal, State and Federal Law Enforcement Agencies in the US.
